dutch design **pottery** and more.

Pottery Pots, a global brand with Dutch roots, is a family-owned business. Focused on developing and selling high-quality planters and related products, along with a strong emphasis on personalized service.

The headquarters with showroom and warehouse is located in Hazerswoude-Dorp, The Netherlands. The North - and South American market is operated from our showroom and warehouse in Pennsauken Township, New Jersey and our showroom in Atlanta, Georgia; both in the United States of America. Additionally, we maintain a warehouse in Vietnam, facilitating container shipments.

Since our foundation in 2008 we aim for an extensive assortment that is based on the belief that design should be available for everyone. That is why we are always looking for the perfect balance between design, quality and price. Every Pottery Pots product is designed from a simple but clever perspective. We believe in basic forms and shapes, without thinking of it as boring. This no-nonsense way of thinking and designing is assigned to the Dutch identity, and is widely known as 'Dutch design'.

With our 15+ years of experience we know how to give you the best advice. We know buying pottery can be a challenge, but we are here to help you. Whether you need to choose your assortment for the next season, or seeking advice on the ideal planter for your project, our goal is to provide you with the finest pottery.

Material specifications

Fiberstone

The fiberstone pots of Pottery Pots consist of 58% finely crushed stones and the remaining part is glass fiber. Stone is of course a hard product, what makes the pots really firm and high of quality. Therefore, fiberstone planters, flower pots and pots last a long time. Due to the glass fiber, the pots are lightweight and easy to move. That, in combination with the fact that fiberstone is easy to maintain, makes the pots truly user-friendly.

Additionally, fiberstone can survive all kinds of weather conditions. Frost, rain or sun, fiberstone can handle it. Fiberstone planters look good in every environment.

Fiberstone Maintenance Wax

Material specifications

Fiberclay

Fiberclay is a combination of clay and glass fiber and is therefore called clayfibre. A fiberclay pot often has a similar appearance to a pot made of earthenware or clay, but is lighter thanks to the addition of fiberglass. Clayfibre flower pots are also extremely resistant to moisture, frost and sun, and last for many years.

Fiberclay can be compared to ficonstone, with the difference that sand and crushed stone are also added.

68 Rough

UV Resistant - Able to withstand harsh sunlight, ensuring vibrant colors and longevity, even in the brightest of spaces.

Frost Resistant - Can endure cold temperatures, making them ideal for all-year-round outdoor use.

Indoor - Elevate your interior spaces with our planters, adding a touch of greenery to any room.

Outdoor - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.

Conscious choice - Premium quality planters provide longevity, making them a durable option for conscious buyers.

Patt XXXL (P3026-38-34), Grey Washed

Rough

The Rough collection is the rebellious one of the Pottery Pots family. With its 'less is more' mentality, the Rough collection focuses on the tough character of the pot. The collection, with a fiberclay base, consists of modern planter models with the same characteristic finish available in two different colors. Please note that colors may vary slightly between pots due to the production process.

Handmade

All of our pottery is made by hand. However, it's the Oyster collection that truly captivates with its one-of-a-kind appearance. The colors of the pots are painted on by hand in different layers for optimal depth and richness. The image above captures the first layer being applied. What a difference compared to the end result!

Bohemian

Rich in natural charm and craftsmanship, these planters capture the essence of bohemian aesthetics. They are made with an unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Within the Bohemian collection, you can choose between two different looks, each with a different material on the outside that is ecologically responsible: bamboo and straw grass.

Bamboo
color code: **BB**

Crafted with a blend of fiberglass and cement on the inside of the planter, providing strength to maintain their shape. The outer layer is woven bamboo. Thoughtfully designed with a standard drainage hole, plug, and feet for optimal water drainage.

Good to know

All bamboo planters are equipped with feet and a removable plug that ensures that the water can drain properly when the pot is placed outside. If you only use the pot indoors, we recommend a pot-insert (see page 181).

From ancient art to modern gardens

Roman pots, Roman pottery or an old Greek vase: the old influences are often seen in gardens these days. The architecture, with its majestic columns and harmonious proportions, is still a source of inspiration for contemporary designs. In the garden trends we see the Greek aesthetic is making its return.

Icon index

	UV Resistant - Able to withstand harsh sun-light, ensuring vibrant colors and longevity, even in the brightest of spaces.		Frost Resistant - Can endure cold temperatures, making them ideal for all-year-round outdoor use.
	Indoor - Elevate your interior spaces with our planters, adding a touch of greenery to any room.		Outdoor - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.
	Conscious choice - Premium quality planters provide longevity, making them a durable option for conscious buyers.		Lighweight - Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.
	2 year warranty - We stand by the quality of our products; that's why we offer a 2-year warranty.		5 year warranty - For unparalleled durability and confidence, our planters come with a 5-year warranty.
	Plant waterproof - While not suitable as vases, our planters are designed to be plant waterproof. Achieving 100% waterproofing with larger planters is challenging due to the handmade production process. For planters without the waterdrop icon, we recommend using plastic inserts when placed indoors.		

Warranty conditions

We stand behind the quality of our planters. To keep our warranty promise, make sure to follow these conditions:

Leveling requirement:
For outdoor use, it is important that the planter is placed on a level surface. Uneven ground may compromise the stability of the planter.

Drainage holes:
Outdoor planters must be equipped with drainage holes. Proper drainage is essential to prevent waterlogged soil, root rot, and other issues that can impact the plants and planters.

Pot feet:
Elevating the planter above the ground (when using outdoors) with pot feet is essential to help with drainage, safeguarding your plants and planters from potential water-related challenges.

Non-movement policy:
Once the planter is filled with soil and plants, it should not be moved. Shifting a filled planter may lead to unintended damage.
