Pottery Pots, marchio globale con radici olandesi, è un'azienda a conduzione familiare. Il nostro focus è lo sviluppo e la vendita di vasi di alta qualità e prodotti correlati, con una forte attenzione al servizio personalizzato.

La sede centrale, completa di showroom e magazzino, si trova a Hazerswoude-Dorp, nei Paesi Bassi. Il mercato del Nord e Sud America è gestito attraverso il nostro showroom e magazzino di Pennsauken Township (New Jersey) e lo showroom di Atlanta (Georgia), entrambi negli Stati Uniti. Disponiamo inoltre di un magazzino in Vietnam per agevolare le spedizioni di container.

Fin dalla nostra fondazione nel 2008, puntiamo a offrire un assortimento vasto, basato sulla convinzione che il design debba essere accessibile a tutti. Per questo motivo, cerchiamo costantemente l'equilibrio perfetto tra estetica, qualità e prezzo.

Ogni prodotto Pottery Pots è progettato partendo da una prospettiva semplice ma intelligente. Crediamo nelle forme essenziali, senza che risultino mai noiose. Questo approccio concreto al pensiero e al design è parte integrante dell'identità olandese, ed è universalmente riconosciuto come 'Dutch design'.

Grazie alla nostra esperienza di oltre 15 anni, sappiamo come offrirti la consulenza migliore. Siamo consapevoli che l'acquisto di vasi e fioriere possa essere una sfida, ma siamo qui per aiutarti. Che tu debba scegliere l'assortimento per la prossima stagione o che cerchi consiglio sul vaso ideale per il tuo progetto, il nostro obiettivo è fornirti i prodotti migliori.

Pottery Pots a Family Company

Specifiche dei materiali

Fiberstone

I vasi in fiberstone di Pottery Pots sono composti per il 58% da pietra finemente tritata e per la parte restante da fibra di vetro. La pietra è, per sua natura, un materiale resistente che rende i vasi estremamente robusti e di alta qualità; per questo motivo, le fioriere e i vasi in fiberstone hanno una lunga durata nel tempo. Grazie alla fibra di vetro, i vasi risultano leggeri e facili da spostare. Questo, unito alla facilità di manutenzione del materiale, rende i nostri prodotti incredibilmente pratici e funzionali.

Inoltre, il fiberstone è in grado di resistere a qualsiasi condizione atmosferica. Gelo, pioggia o sole: il fiberstone non teme nulla. Le fioriere in fiberstone si integrano perfettamente in ogni ambiente.

"Resistente ai raggi UV – In grado di resistere alla luce solare intensa, garantendo colori vivaci e una lunga durata nel tempo,

"Resistente al gelo – In grado di sopportare le basse temperature, caratteristica che li rende ideali per un utilizzo esterno durante tutto l'anno.

Indoor – Valorizza i tuoi spazi interni con i nostri vasi, aggiungendo un tocco di verde a ogni stanza.

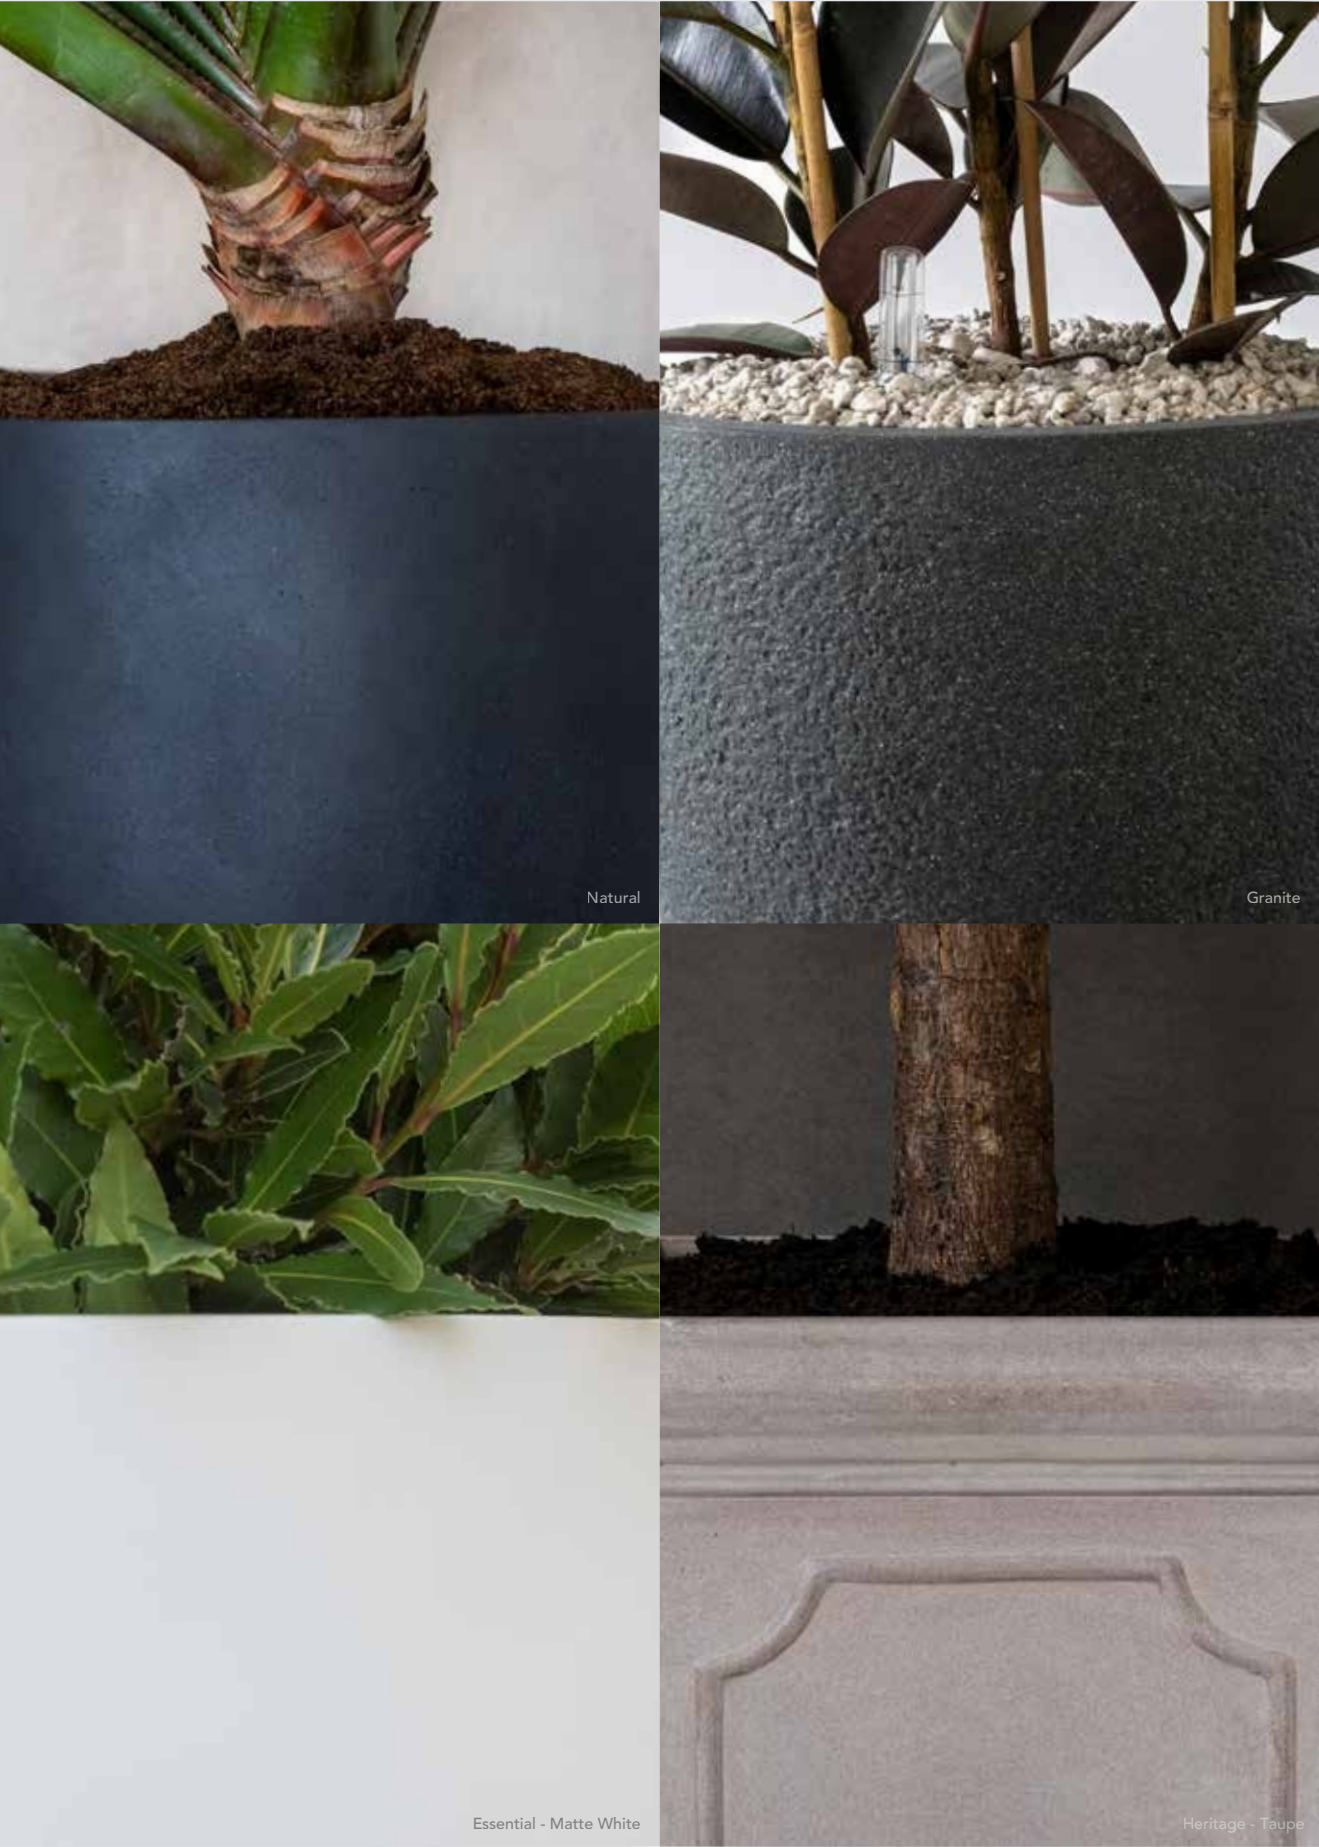

Outdoor – Vasi resistenti, progettati per durare con qualsiasi condizione atmosferica e per dare vita ai tuoi giardini e terrazzi.

Scelta consapevole – I vasi di qualità superiore garantiscono una lunga durata nel tempo, rappresentando un'opzione sostenibile e durevole per gli acquirenti più attenti.

Leggerezza – Grazie alla miscela in fiberstone, questi vasi rappresentano un'alternativa molto più leggera rispetto alle fioriere realizzate in argilla o in pietra naturale.

Natural

La collezione Natural offre una vasta gamma di vasi realizzati in resistente fiberstone, che riproduce fedelmente l'aspetto della pietra naturale, più costosa e pesante. Radicata nei principi del design olandese, la collezione Natural incarna il perfetto equilibrio tra estetica e funzionalità. Inoltre, la versatilità delle dimensioni garantisce l'adattabilità a qualsiasi spazio, integrandoli armoniosamente in ogni tipo di ambiente.

Fiberstone Maintenance Wax

I vasi in fiberstone nero delle collezioni Natural e Heritage (codice colore -01) possono essere trattati da 2 a 4 volte l'anno con la nostra cera di manutenzione. La cera protegge le tue fioriere e aiuta a preservare l'intensità del colore nero. Per maggiori informazioni, consulta pagina 179.

Lightweight

Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.

Material specifications

Fiberclay

Fiberclay is a combination of clay and glass fiber and is therefore called clayfibre. A fiberclay pot often has a similar appearance to a pot made of earthenware or clay, but is lighter thanks to the addition of fiberglass. Clayfibre flower pots are also extremely resistant to moisture, frost and sun, and last for many years.

Fiberclay can be compared to ficonstone, with the difference that sand and crushed stone are also added.

68 Rough

UV Resistant - Able to withstand harsh sun- light, ensuring vibrant colors and longevity, even in the brightest of spaces.

Indoor - Elevate your interior spaces with our planters, adding a touch of greenery to any room.

Conscious choice - Premium quality planters provide longevity, making them a durable option for conscious buyers.

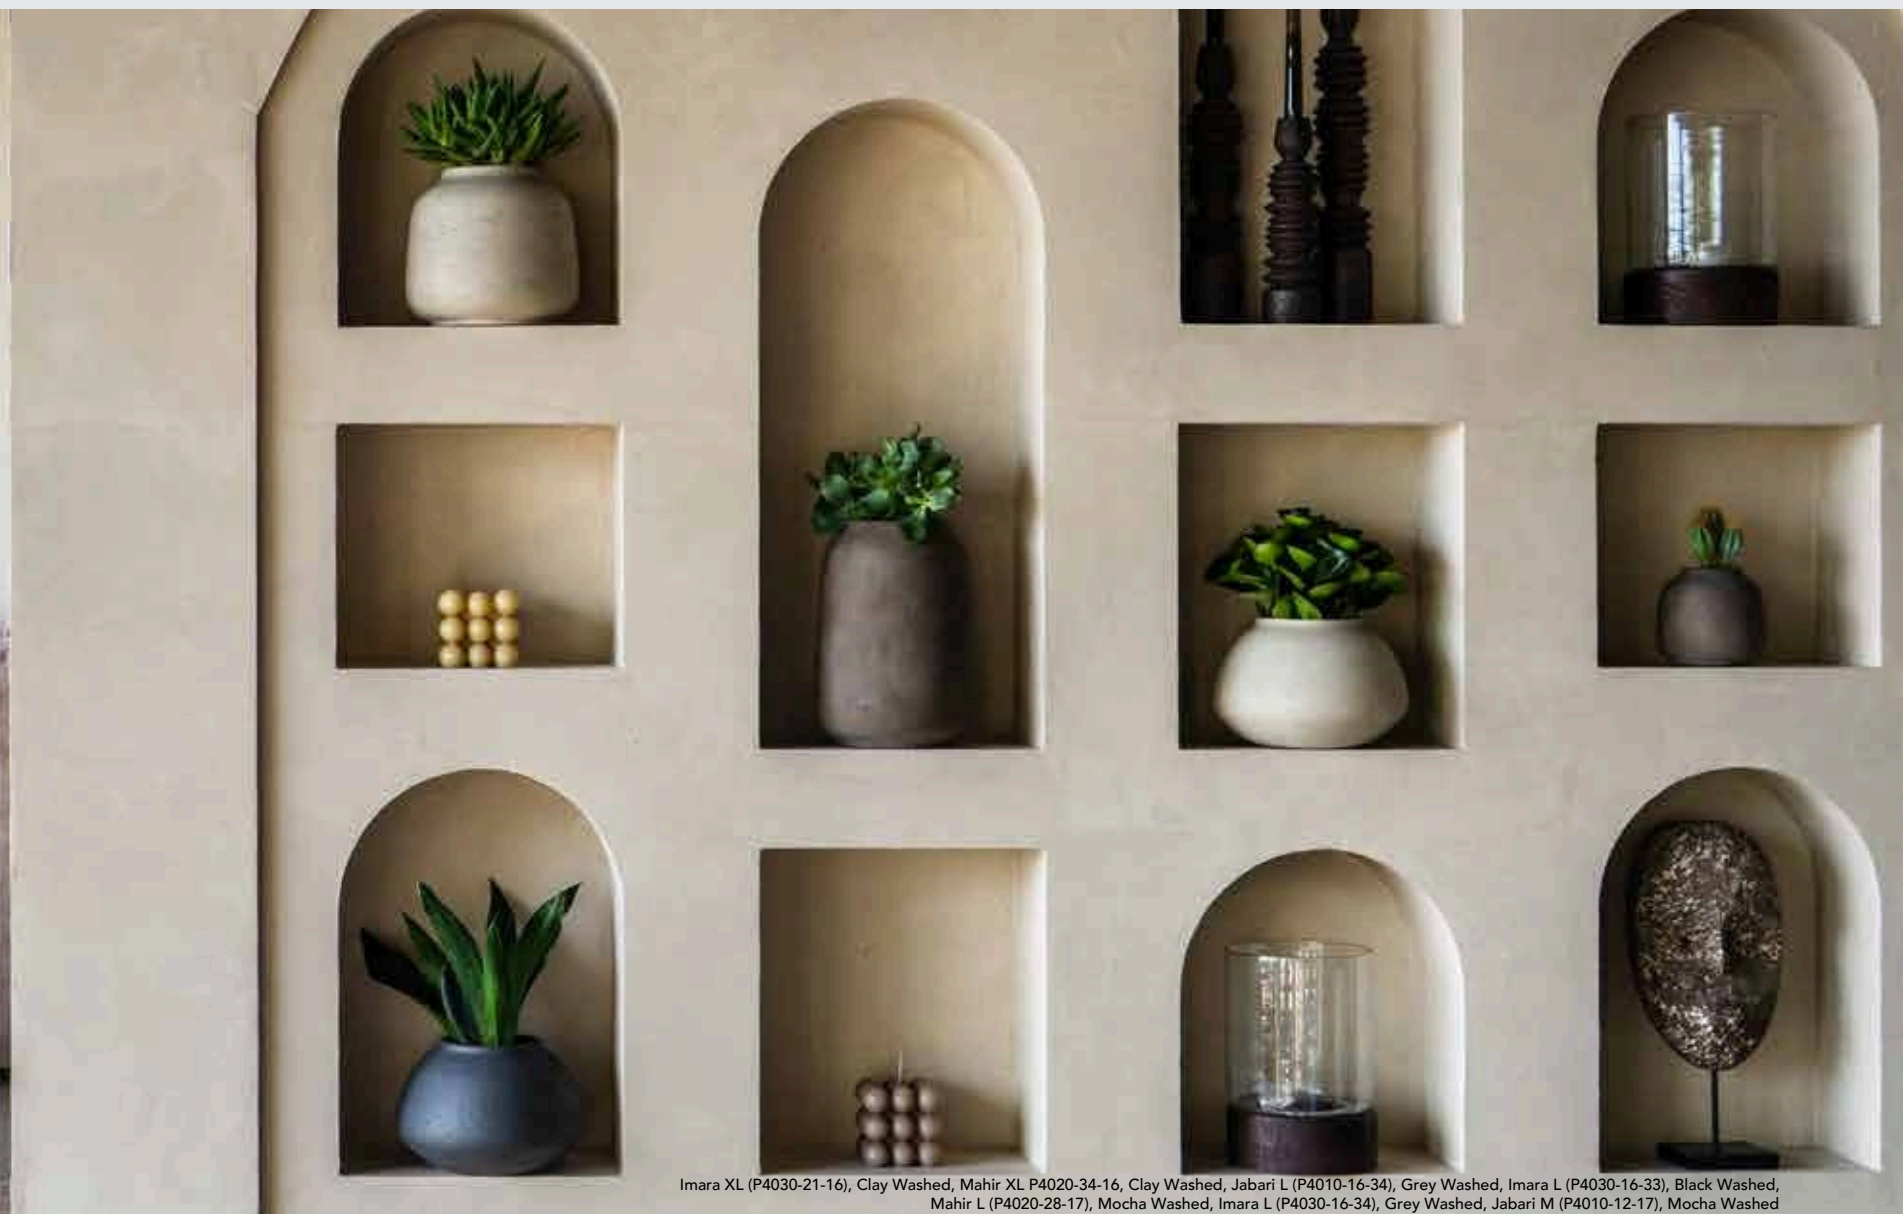

Frost Resistant - Can endure cold temperatures, making them ideal for all-year-round outdoor use.

Rough

The Rough collection is the rebellious one of the Pottery Pots family. With its 'less is more' mentality, the Rough collection focuses on the tough character of the pot. The collection, with a fiberclay base, consists of modern planter models with the same characteristic finish available in two different colors. Please note that colors may vary slightly between pots due to the production process.

Ficonstone

Ficonstone is a balanced mix of fiberglass, cement, sand and crushed stone. It is very sturdy, yet relatively light. Ficonstone flower pots and planters are suitable for both indoor and outdoor use, making them very versatile. This also applies to the finishing options. There are ficonstone pots with a rough and smooth finish, in natural, modern, and vintage style. Compared to the popular fiberstone, ficonstone is heavier and more affordable.

Handmade

All of our pottery is made by hand. However, it's the Oyster collection that truly captivates with its one-of-a-kind appearance. The colors of the pots are painted on by hand in different layers for optimal depth and richness. The image above captures the first layer being applied. What a difference compared to the end result!

From ancient art to modern gardens

Roman pots, Roman pottery or an old Greek vase: the old influences are often seen in gardens these days. The architecture, with its majestic columns and harmonious proportions, is still a source of inspiration for contemporary designs. In the garden trends we see the Greek aesthetic is making its return.

Treasure

Inspired by the timeless beauty of ancient Egypt, this collection features classic planters characterized by elegant jug shapes and intricate rope details. These items add a touch of traditional charm to any indoor or outdoor space. Although they have the appearance of terracotta pots, they are actually made of a durable composite material called ficonstone, which consists of fiberglass, cement, and sand.

Icon index

	UV Resistant - Able to withstand harsh sun- light, ensuring vibrant colors and longevity, even in the brightest of spaces.		Frost Resistant - Can endure cold temperatures, making them ideal for all-year-round outdoor use.
	Indoor - Elevate your interior spaces with our planters, adding a touch of greenery to any room.		Outdoor - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.
	Conscious choice - Premium quality planters provide longevity, making them a durable option for conscious buyers.		Lighweight - Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.
	2 year warranty - We stand by the quality of our products; that's why we offer a 2-year warranty.		5 year warranty - For unparalleled durability and confidence, our planters come with a 5-year warranty.
	Plant waterproof - While not suitable as vases, our planters are designed to be plant waterproof. Achieving 100% waterproofing with larger planters is challenging due to the handmade production process. For planters without the waterdrop icon, we recommend using plastic inserts when placed indoors.		

Warranty conditions

Westandbehindthequalityofourplanters.To keep our warranty promise, make sure to follow these conditions:

Leveling requirement: For outdoor use, it is important that the planter is placed on a level surface. Uneven ground may compromise the stability of the planter.	Pot feet: Elevating the planter above the ground (when using outdoors) with pot feet is essential to help with drainage, safeguarding your plants and planters from potential water-related challenges.
Drainage holes: Outdoor planters must be equipped with drainage holes. Proper drainage is essential to prevent waterlogged soil, root rot, and other issues that can impact the plants and planters.	Non-movement policy: Once the planter is filled with soil and plants, it should not be moved. Shifting a filled planter may lead to unintended damage.
